

### **PREPARE FOR TREE SPRAYING CHECKLIST:**

- ***Close all windows around the house.***
- ***Stay inside during the application & stay out of treated area until trees are dry. ( 1 hour after)***
- ***Pick up kids toys that are outside and anything else that you would not want any potential spray to get on.***
- ***Pets must stay inside during the spraying and remain inside until the trees are dry. (1 hour after the completion of the spraying)***
- ***Remove your pets food and water bowls, dog bones, or chew toys of any sort.***
- ***Remove bird feeders and take them inside during, and for at least an hour after the completion of the spraying. Bird baths can be covered with plastic or flip them over to dump any water out and leave them upside down***
- ***Do not have food & drinks sitting out, including dishes, eating utensils, etc.***
- ***Move bbq grills, patio furniture cushions, or any other items that are directly under the tree that is going to be treated. An alternative to moving things away from the trees is to cover these items with plastic.***
- ***Close windows or vents to any green houses, vegetable gardens or beds should be covered with plastic. Vegetable plants in containers should be moved inside or can be covered with plastic.***

***If you have any questions, please call or send me an email.***
